## Geometric Dimensioning & Tolerancing Training

Featuring Mark Foster from Applied Geometrics, Inc. in Bridgeport, WV on Thursday, March 22

Mark Foster has over 30 years of experience in design, quality, and GD&T. In these sessions, he shows how communicating engineering specifications ensures everyone understands the process, he explains blueprint nomenclatures and how GD&T (ASME Y14.5) IS the standard.

We'll have plenty of good food and time for networking with other professionals. You'll also have an opportunity to register for a chance to win a pair of ZEISS TERRA binoculars.

Event will be held at RCBI (Robert C. Byrd Institute)  
2400 E. Benedum Industrial Dr.  
Bridgeport, WV 26330  
Office: 800.469.7224

**Seating is limited so RSVP today!**

[For more information or to register, email Lisa at \[lpayne@inspectionengineering.com\]\(mailto:lpayne@inspectionengineering.com\)](#)
